EXPERIENCE

CodeRigi Technologies, Uyo— *Frontend developer*

April 2025 - PRESENT

Built real-life projects including a **fintech dashboard** and multiple **landing pages**.

CodeRigi Technologies, Uyo — *Frontend-internship*

June 2024 - April 2025

Participated in real-time coding challenges and passed evaluations to graduate successfully.

EDUCATION

CodeRigi Technologies, Uyo— *Frontend developer*

October 2023 - June 2024

I completed my frontend development training at **CodeRigi Technologies**, where I passed multiple technical assessments and built real-time applications as part of the curriculum.

Throughout the program, I developed several practical projects — including an e-commerce site, high-converting landing pages, and other websites — many of which are live and publicly accessible online.

PROJECTS

Pharste Dashboard — *Fintech App Dashboard*

Built a responsive fintech dashboard using **React.js** and **Tailwind CSS**, allowing users to track transactions, manage wallets, and view financial activity. Integrated mock APIs for data simulation and used a clean, performance-focused layout.

VFM — *Game Download Website for Virtual Football Manager*

Developed a responsive site for **Virtual Football Manager** game downloads using **React.js**, **Tailwind CSS**, and **Framer Motion** for smooth animations. Focused on fast loading, mobile support, and a simple user experience.

SKILLS

Skilled in building responsive and dynamic web applications using **React.js**, **JavaScript**, **HTML**, and **CSS**. Experienced with modern libraries and tools such as **Tailwind CSS**, **Framer Motion**, **Redux**, and others to enhance UI design, state management, and animation..

LANGUAGES

English.
